Year 7 Summer Camp

W/B 27th
June 2016

- The site address is:
- **Kibblestone International Scout Camp**
Oulton
Stone
Staffordshire
ST15 8UJ

- 
- 
- **This large wooded camp can accommodate over 200 people in a range of sites from large open fields to small clearings.**
 - **The toilet blocks have hot water and showers, and are equipped with special needs facilities.**

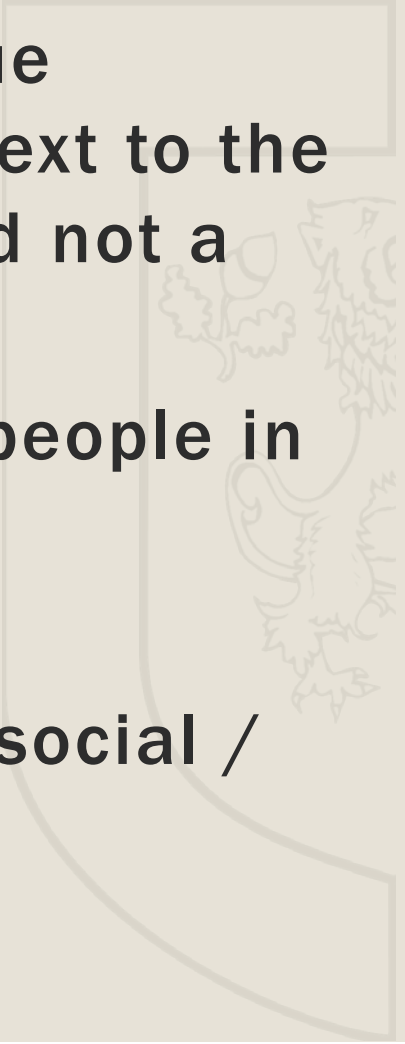

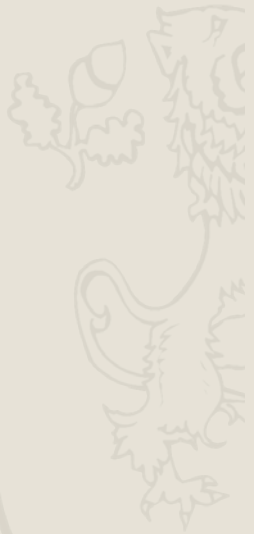

- 
- The camp is designed to provide a true camping experience, toilets are not next to the tents and we are in acres of woodland not a flat grassy field.

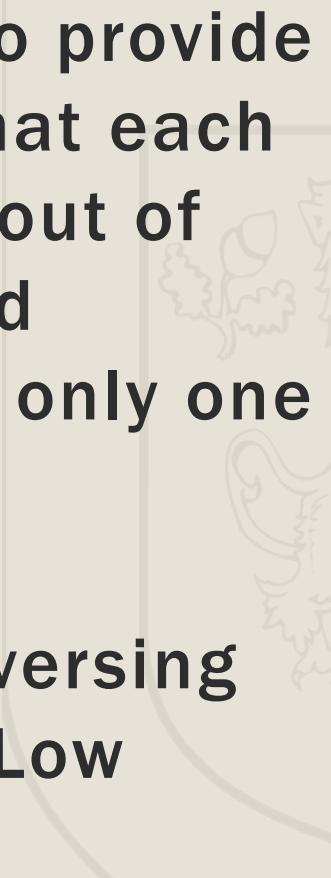

We use 8 man tents and put 6 young people in them so they have plenty of room.

Staff have their own tents.

There is a large marquee to use as a social / meeting space.

- 
- They have designed the programme to provide maximum activity per individual so that each student can get as much as possible out of the trip. We have purposefully avoided activities which by their nature mean only one person at a time can take part e.g. abseiling. Activities available include kayaking, rafting, climbing tower, traversing wall, archery, orienteering, a larger 'Low Ropes' course and a nature trail.
