

Catch-Up Pupil Plan 2013-14

We are required to publish information about the Year 7 literacy and numeracy catch-up programme. For 2013-14 the school received £14,500. This is £500 for each student in year 7 who did not achieve Level 4 in either English (reading) or Maths.

This funding has helped to provide the following support for our targeted students:

- Contribution towards summer school funding which provides focussed catch-up activities in literacy and numeracy and an accelerated induction into learning at Chenderit School
- Contribution towards the costs of the Read, Write Inc programme developing literacy skills
- Contribution towards the costs of additional small group teaching focussing on literacy and numeracy skills
- Contribution towards Sam Learning and My Maths online resources for students
- Contribution towards the developing writing programme which linked younger and older students to develop imaginative and effective writing
- Contribution towards the introduction of a new whole school marking policy including training for staff

Achievement Outcomes

	On entry (Ks2 results)	End Y7
Maths		
% of catch up students on L3 or below	61.5	41.7
% of catch up students on L4	38.5	58.3
% of catch up students on L5	7.7	4.2
% of catch up students making expected progress		46
% of catch up students making more than expected progress		19
English		
% of catch up students on L3 or below	63	20
% of catch up students on L4	33.3	80
% of catch up students on L5	3.7	24
% of catch up students making expected progress		77
% of catch up students making more than expected progress		42
