

Flying Start 2 – Music

Please listen to these 4 seminal works from the 19th century (extracts will do as you will go over the suggested time limit if you listen to the whole of each piece, though of course you may find that they really grab you and you may want to listen to the whole of some of them).

Please write a couple of paragraphs of notes about each, based on what you have noticed as you have listened and on research you have done about each. You should spend an hour on each piece, including listening and research. If you listen to them in this order, you will find that they make sense in terms of the development of music.

Beethoven – Symphony No.3 – ‘Eroica’

Berlioz – Symphonie Fantastique

Liszt – Faust Symphony

Wagner – Prelude to Tristan Und Isolde
